

ST. WILFRED'S P.G. COLLEGE

(Affiliated to the University of Rajasthan)

PROGRAMME OUTCOME

M.SC. Mathematics

PO-1	The student will get advanced knowledge of principles, methods, and clear perception of and innumerable power of mathematical ideas and tools.
PO-2	The student will be able to apply their skills and knowledge, that is translate information presented verbally into Mathematical form select and use appropriate mathematical formulae or techniques in order to process the information and draw relevant conclusions.
PO-3	The student will be able to find out or analyze scientific reasoning for various things.
PO-4	The student will get knowledge about both pure as well as applied mathematics branches.
PO-5	The student will get adequate exposure to global and local concerns that explore many aspects of Mathematical sciences
PO-6	The student will get a relational understanding of mathematical concepts and concerned structures
PO-7	The student will communicate scientific information clearly and concisely manner both orally and in writing or through audio video presentations
PO-8	The student will develop a positive attitude towards mathematics as an interesting and valuable subject of study
PO-9	The student will the develop capacity of critical reasoning, theoretical applied and communication skills.
PO-10	The student will develop abilities for logical thinking and problem solving.

PROGRAMME OUTCOME

M.SC. Zoology

PO-1	The student will understand the biological diversity and grades of the complexity of various animal forms through their systematic classification and comparative structural studies.
PO-2	The student will learn how the earth was formed and how life started and evolved on the planet a through process of organic evolution.
PO-3	The student will understand the roles of plants, animals, and microbes in the sustainability of the environment and their interaction among themselves, and the deterioration of the environment due to anthropogenic activities.
PO-4	The student will understand the concepts and principles of biochemistry, immunology, physiology, ethology, endocrinology, developmental biology, cell biology, genetics, molecular biology, and microbiology.
PO-5	The student will develop technical skills in biotechnology, bioinformatics and biostatistics.
PO-6	The student will delve into the wonderful world of insects, their success on the planet, and their diversity.
PO-7	The student will acquire knowledge on harmful and beneficial insects, their adaptations for life and control measures.
PO-8	The student will perform laboratory procedures as per standard protocols in the areas of animal diversity, systematics, cell biology, genetics, biochemistry, molecular biology, microbiology, physiology, immunology, developmental biology, environmental biology, ethology, evolution, and Entomology.
PO-9	The student will acquire hands on training in the use of various tools and techniques suggested in the course.
PO-10	The student will develop skills to solve scientific problems with statistical formulas.

PROGRAMME OUTCOME

M.SC. Environmental Science

PO-1	The student will create and disseminate knowledge to the students about environmental problems at local, regional, and global scale.
PO-2	The student will provide practical training on modern instrumentation and analytical techniques for environmental analyses.
PO-3	The student will sensitize students towards environmental concerns, issues, and impacts of climate change and related mitigation strategies.
PO-4	The student will make the students apply their knowledge for efficient environmental decision-making, management, and sustainable development.
PO-5	The student will prepare students for successful careers in environmental departments, research institutes, industries, consultancy and NGOs, etc.
PO-6	The student will become knowledgeable in the subject of Environmental Science and apply the principles of the same to the needs of the Employer/Institution /own Business or Enterprise.
PO-7	Apply decision making methodologies to evaluate solutions for Efficiency, effectiveness and environmental sustainability.
PO-8	The student will apply effective, creative, and innovative solutions, both independently and cooperatively, to present and future environmental problems
PO-9	The student will initiative to create social consciousness on various environmental Problems.
PO-10	The student will analyze issues and problems of local, national and international concerns pertaining to the environment domain and act aptly.

PROGRAMME OUTCOME

M.SC. Geology

PO-1	The student will demonstrate a working knowledge of the terminology of geology, geophysics, geochemistry, and others, with a comprehensive understanding of the earth's interior, surface, resources, climate, biosphere, and the different methods used to study them.
PO-2	The student will identify with confidence the different minerals, rocks, ores, and fossils in the field or outcrop or laboratory, based on their megascopic and microscopic characters and natural crystals based on their morphology along with a working knowledge of their geological origin and significance.
PO-3	The student will identify with confidence the different geomorphic features and geological structures in the field and map with emphasis on their origin and configuration.
PO-4	Identify, interpret, synthesize and evaluate topographic and geological maps, terrain models, draw profiles and geological cross sections.
PO-5	The student will identify, interpret, visualize, synthesize and evaluate geophysical data, geochemical data, and remote sensing images.
PO-6	The student will apply the acquired knowledge to mineral and fuel exploration, mine planning and mining geology, remote sensing geology and engineering geology.
PO-7	The student will apply and handle Brunton and clinometer compasses, different surveying equipment, geophysical surveying equipment, remote sensing images, topographic maps, terrain models, and others in geological mapping, mineral exploration and other geological investigations.
PO-8	The student will apply the relevant principles of chemistry, physics, mathematics, computing and engineering to varied geological problems.
PO-9	The student will discuss with confidence the theories and principles for major processes, phenomena and observations within Applied Geology. Synthesize recorded observations, evidence, and theory across different areas of earth and planetary science, recognizing and explaining similarities and differences between different regions, times, planets and geological processes.
PO-10	The student will develop proficiency in understanding and conveying complex geological ideas and concepts with clarity in written, online and oral communication and develop positive values and aptitude necessary to obtain and maintain employment as a professional geologist or to further their education.

PROGRAMME OUTCOME

M.SC. Physics

PO-1	The student will develop an ability to become a specialist in various areas of Physics and apply the same in day-to-day life.
PO-2	The student will acquire knowledge about the nature, concepts, methods, techniques, and objectives of the core physics subjects
PO-3	The student will make the students in mastering in the field of materials science and astrophysics and prepare them for research
PO-4	The student will cultivate a scientific approach and culture of research aptitude.
PO-5	The student will enhance the problem-solving skills of the students so that they will be able to tackle the national level competitive exams like NET, GATE, and SET etc.
PO-6	The student will understand the links of Physics to other disciplines and to societal issues.
PO-7	The student will develop their skill development, employability, and entrepreneurship skills
PO-8	The student will become professionally trained in the area of electronics, optical communication, nonlinear circuits, materials characterization and lasers.
PO-9	The student will demonstrate the highest standards of Actuarial ethical conduct and Professional Actuarial behavior, critical, interpersonal and communication skills as well as a commitment to lifelong learning
PO-10	The student will pursue research related to Physics and Materials characterization.

PROGRAMME OUTCOME M.SC. Chemistry

PO-1	The student will demonstrate and apply the fundamental knowledge of the basic principles in various fields of Chemistry
PO-2	The student will create awareness and a sense of responsibility towards the environment and apply knowledge to solve the issues related to Environmental pollution.
PO-3	The student will apply various aspects of chemistry in natural products isolations, pharmaceuticals, dyes, textiles, polymers, petroleum products, forensic, etc. and to develop an interdisciplinary approach of the subject.
PO-4	The student will collaborate effectively on team-oriented projects in the field of Chemistry or other related fields.
PO-5	The student will communicate scientific information in a clear and concise manner both orally and in Writing.
PO-6	The student will inculcate logical thinking to address a problem and become result oriented with a positive attitude.
PO-7	The student will explain environmental pollution issues and the remedies thereof
PO-8	The student will apply the knowledge to develop sustainable and eco-friendly technology in Industrial Chemistry.
PO-9	The student will augment the recent developments in the field of green and eco-friendly reactions, pharmaceutical, Bioinorganic Chemistry and relevant fields of research and development.
PO-10	The student will enhance the scientific temper to develop a research culture and implementation of the policies to tackle the burning issues at the global and local levels.

PROGRAMME OUTCOME M.SC. Botany

PO-1	The student will understand the scope and significance of the discipline.
PO-2	The student will imbibe love and curiosity towards nature through the living plants.
PO-3	The student will make students open-minded and curious, we try our best to enhance and develop a scientific attitude.
PO-4	The student will make the students exposed to diverse life forms.
PO-5	The student will make them skilled in practical work, experiments, laboratory equipment and interpreting correctly on biological materials and data.
PO-6	The student will encourage the students to do research in related disciplines.
PO-7	The student will develop the ability of the students to transform society through their education.
PO-8	The student will acquaint the students about the methods used in the maintenance of different natural resources.
PO-9	The student will critical Thinking: including creative thinking, innovation, inquiry and analysis, evaluation, and synthesis of information.
PO-10	The student will study the topics of plant form, function and reproduction, and an overview of plant diversity including bryophytes, ferns, and seed plants.

PROGRAMME OUTCOME MA English Literature

PO-1	The student will apply theoretical knowledge to make a critical analysis, intervene using innovative frameworks and evaluate and follow up
PO-2	The student will engage in inter and intra-personal communications, behavioural change communication and proficiency in Information Communication Technology.
PO-3	The student will build essential skills of life including questioning, observing, testing, hypothesizing, analyzing and communicating.
PO-4	The student will demonstrate empathetic social concern and engage in service learning and community engagement programmes for contributing towards achieving local, regional, and national goals.
PO-5	The student will recognize different value systems including your own, understand the moral dimensions of their decisions and accept responsibility for them
PO-6	The student will participate and promote sustainable development goals.
PO-7	The student will imbibe Gender sensitivity and a sense of social responsibility for self and community for the benefit of society at large.
PO-8	The student will engage in continuous learning for professional growth and development.
PO-9	The student will develop mastery of English language skills and forms to be used in explicitly meaningful contexts through literature and criticism
PO-10	The student will acquire the necessarily required linguistic competence to be mastered in various real life situations

PROGRAMME OUTCOME MA Political Science

PO-1	The student will demonstrate knowledge and understanding of the key theories and concepts in Political Science. It also aims to familiarize insights into the theoretical advances in the discipline.
PO-2	The student will be able to evaluate theories in the light of empirical evidence or normative propositions.
PO-3	The student will apply appropriate theories to analyze social and political happenings.
PO-4	The student will demonstrate an understanding of the philosophical dimensions of political systems, processes and movements at the local, national, and transnational levels.
PO-5	The student will develop the intellectual ability to undertake interdisciplinary research.
PO-6	The student will achieve and demonstrate the ability to communicate their ideas effectively using the appropriate language of the discipline.
PO-7	The student will apply critical thinking, communication and analytical skills to address significant issues of concern in society.
PO-8	The student will recognize issues of social justice and inclusive development. To understand the problems pertaining to underdevelopment and uneven development in society.
PO-9	The student will inculcate the spirit of just, fair, and reasonable standards among the students.
PO-10	The student will understand the issues such as organized group bargaining and political patronage in society.

PROGRAMME OUTCOME

MA Sociology

PO-1	The student will develop a sociological imagination to make sense of reality in a more comprehensive manner
PO-2	The student will enhance the ability to make interconnections between individual cases and the course of social life
PO-3	The student will update and upgrade their knowledge of sociological concepts and methods and build a strong theoretical foundation in Sociology
PO-4	The student will develop the ability to analyze challenges and issues in contemporary society and apply theoretical knowledge to grasp social reality.
PO-5	The student will recognize the scope of Sociology in terms of career opportunities, employment and life skills
PO-6	The student will cultivate the intellectual, affective, and social abilities of students as researchers and professionals.
PO-7	The student will enhance their ability and skills to contribute as active participants in society
PO-8	The student will develop a strong sense of moral and ethical standards as an integral part of living.
PO-9	The student will familiarize with various interdisciplinary fields using sociological knowledge and foster advanced learning.
PO-10	The student will develop a global world-view with an understanding of various forms of social inequality and social diversity

PROGRAMME OUTCOME MA Public Administration

PO-1	The students will be able to promote a commitment to the improvement of government and social institutions.
PO-2	To educate the students about generalist public management knowledge and skills.
PO-3	Prepare students to initiate and facilitate interactions between government, for-profit, and nonprofit sectors to provide ethical and workable solutions to societal needs.
PO-4	Educate students to be compassionate and effective leaders who humanely manage public Organizations
PO-5	Translate research into effective practices and achievable, human policies.
PO-6	Impart the students the important skills like conceptual, entrepreneurial, and analytical skills for the acquisition of academic theory and skills to foster an ethical commitment to the public service values of serving the public interest with accountability and transparency.
PO-7	To encourage students to acquire knowledge, skills, and capabilities arising from the need for a more efficient and effective public administration.
PO-8	Rigorous critical analysis skills to inform evidence-based public and community problem-solving and decision-making processes in changing contexts
PO-9	The ability to work collaboratively within and across sectoral, jurisdictional and organizational boundaries
PO-10	The ability to engage a diversity of perspectives and interests to support culturally responsive, inclusive, justice-oriented and equitable public service

PROGRAMME OUTCOME

MA History

PO-1	The student will learn the basic narratives of historical events, chronology, personalities and turning points in the history of India, the World, and Rajasthan.
PO-2	Build critical ability through competing interpretations and multiple narratives of the past, and offer multi-causal explanations of major historical developments based on contextualized analysis of interrelated political, social, economic, cultural, and intellectual processes.
PO-3	The student will evaluate historical ideas, arguments and points of view, presentation of a summary of a topic in an organized, coherent, and compelling fashion orally or written.
PO-4	The student will construct original historical arguments based on primary or secondary source material and the ability to identify and describe the contours and stakes of conversations among historians within defined historiographical fields.
PO-5	The student will acquire basic historical research skills, including, effective use of libraries, archives, and databases
PO-6	The student will critically analyze and interpret primary documents and secondary sources and will be able to interpret qualitative and quantitative data to evaluate historical events.
PO-7	The student will develop skills to evaluate the sources, methods, motivations, and interpretations behind historical narratives.
PO-8	The student will learn how to craft and present convincing and well-supported arguments
PO-9	The student will recognize and appreciate the diversity of human experiences and how these change over time
PO-10	The student will develop communication skills through oral and written exercises, and develop analytical skills by critically interpreting historical events.

PROGRAMME OUTCOME

MA Economics

PO-1	The student will develop critical thinking to investigate various socio-economic issues objectively while bridging the gap between theory and practice.
PO-2	Equip the student with skills to analyze problems, formulate a hypothesis, evaluate, and validate results and draw reasonable conclusions thereof.
PO-3	Prepare students for pursuing research or careers that employ entrepreneurship and innovative methods. Because today's unemployment problem can also be solved by developing the micro and small entrepreneurship
PO-4	Prepare students to develop their own thinking /opinion regarding current national or international policies and issues
PO-5	Create awareness to become rational and an enlightened citizens so that they can take the responsibility to spread the governments initiatives/schemes to the rural areas for the upliftment of the poor or vulnerable section of the society for inclusive growth
PO-6	Offer an innovative combination of fundamental and applied training to provide graduates with essential knowledge of global, comparative, and transnational issues in Economics, as well as specific expertise and skills related to the practice of applied Economics
PO-7	Develop the theoretical and interdisciplinary training necessary for the understanding and application of Economics: Economics policy, theories of various schools of Economics, sectoral studies covering sectors of critical importance like Industries, Foreign trade, Rural and Urban Economics, and many others.
PO-8	Encourage the application of knowledge by concentrating on research work and by providing an opportunity to engage in research.
PO-9	Explore and engage in IT tools and software for research to help them develop and apply these skills in a professional setting.
PO-10	Integrate active learning methods like case studies, project, and teamwork into the learning process, as well as to conduct research seminars, master classes with guest faculty and internships with connect to their core academic competencies.

PROGRAMME OUTCOME

MA/MSC Geography

PO-1	Compare and contrast the theories, philosophies, and concepts in the discipline of geography, including unifying themes of spatial patterns and structures, the interrelationship between people and places, and the interactions between nature and society.
PO-2	Demonstrate an advanced understanding of and ability to differentiate among the various methodologies used in geographic research.
PO-3	Acquire, analyze, evaluate, interpret and critique geographic data and/or research.
PO-4	Communicate mastery of geographic data, theories, philosophies, and concepts in oral, written, and visual forms, with ethical engagement and respect for the diversity of individuals, groups, and cultures.
PO-5	Identify and assess how geographic concepts apply in the workplace and in everyday life to solve real-world problems.
PO-6	The program helps in identifying and critically analyzing the spatial Distribution patterns of man- environment interactions, resource planning, and management.
PO-7	The program helps students to identify, describe, analyze, and solve complex interactions that exist between the physical and human spheres.
PO-8	The program helps in identifying and critically analyzing the spatial Distribution patterns of man- environment interactions, resource planning and management.
PO-9	The program enables to synthesis, critically evaluate, and design maps to interpret, study of patterns of physical and human characteristics on the Earth's surface and apply geospatial tools to appraise real-world problems.
PO-10	Understanding of fundamentals of formation, evolution, and structural diversity of physical and cultural landscape at Regional and Global level. That helps in the study and analysis of its impact and influences.

PROGRAMME OUTCOME

MA/MSC Psychology

PO-1	Learn communication, and acquire critical thinking skills through internships, practicum placements, and dissertations.
PO-2	Develop integrity, sensitivity, and an appreciation for the diversity of the human experience.
PO-3	Be encouraged to keep abreast of current trends in the field of psychology.
PO-4	Students will demonstrate basic competency in applied psychology and counseling theories
PO-5	Students will integrate knowledge of how various cultures, dimensions of diversity and social stress impact both clinical work and mental health/recovery.
PO-6	Students will apply interpersonal communication and presentation skills which are related to high integrity and effective practice.
PO-7	Students will evaluate relevant research by (a) illustrating critical thinking and (b) producing scientific writing.
PO-8	Students acquire knowledge of key concepts, theories and findings in three broadly defined areas of psychology: Applied and Evaluative Psychology, Social, Cognitive & Developmental Psychology, and Biopsychology & Comparative Psychology.
PO-9	Students learn to reason scientifically, interpret and use statistics, and critically assess and conduct psychological research.
PO-10	Students learn to write scientific papers in the format specified by the American Psychological Association, how to write a MA thesis based on original empirical research, and how to present their research at conferences.

PROGRAMME OUTCOME

M.COM

PO-1	Fundamental knowledge in different functional areas of management, managerial principles, economic theory and quantitative techniques of decision-making like Statistics and Operations Research are imbibed by the students.
PO-2	The managerial skill of the students are developed by adopting practical approaches such as case studies, business games, assignment writing and application of digital technology
PO-3	To provide systematic and rigorous learning and exposure to Banking and Finance related disciplines.
PO-4	To train the student to develop conceptual, applied and research skills as well as competencies required for effective problem solving and right decision making in routine and special activities relevant to financial management and Banking Transactions of a business
PO-5	To acquaint a student with conventional as well as contemporary areas in the discipline of Commerce.
PO-6	To enable a student well versed in national as well as international trends.
PO-7	To facilitate the students for conducting business, accounting and auditing practices, role of regulatory bodies in corporate and financial sectors nature of various financial instruments.
PO-8	To provide an in-depth understanding of all core areas specifically Advanced Accounting, International Accounting, Management, Security Market Operations and Business Environment, Research Methodology and Tax planning.
PO-9	Students get adequate exposure to operational procedures in Finance, Marketing, HRD, Banking, Insurance, Accounting, Taxation, International Business and Operations Management.
PO-10	Students are equipped with dual specialization such as a combination of Finance and Marketing or Finance and Human Resource Development or Marketing and HRD to make them useful human resources to cater to multiple tasking demands in industry.

PROGRAMME OUTCOME

M.COM in HRM

PO-1	Learn the basics of strategy, strategic management, corporate and business level strategy, business strategy, organization structure and processes, managing and implementing strategic change.
PO-2	Gain an understanding of the fundamentals of OB, global work culture and practices, ethics and ethical behaviour in organizations, individual behaviour, group behaviour and group dynamics, conflict management, basics of leadership, etc.
PO-3	Acquire the fundamentals of evolution of industrial relations and trade unionism in India, legislations related to industrial relations, various methods of settlement of the industrial disputes, labour welfare and labour education, and worker education and training.
PO-4	Get acquainted with various tools, techniques, technologies and methods related to various functional areas of Management like Human Resource Management & Development, Industrial Relations, Marketing, Research Methodology, Ethics, Consumer Behavior etc.
PO-5	Develop inquisitiveness and curiosity among students, inculcate strategic and problem-solving aptitude, and develop critical and creative bend of minds for gaining insights into various areas of Commerce and Management.
PO-6	To understand human resource issues and management trends in a competitive global economy as well as a broad spectrum of state and federal employment legislation.
PO-7	To equip students with the tools necessary to effectively meet the challenges of an ever-changing business climate.
PO-8	To inculcate specialized knowledge and skills required by managers who are responsible primarily for managing human resources and improving industrial relations
PO-9	To develop a sound theoretical base in the domain of Human Resource Management.
PO-10	To develop communication, interpersonal skills, and leadership qualities to work in and with teams in organizations.
