Activity Report	
Name of Activity	Workshop on importance of Social Media Policy
Title	Workshop on importance of Social Media Policy
Date	12-08-2022
Venue	St. Wilfred's P.G. College, Jaipur
Organized by	TPO CELL & Department of Computer Science
Faculty Coordinator	Dr. Ruchi Dave
Resource Person	Dr S.K.Sharma
Enrolled Student	115
Event Summary	The College-Organized Workshop on the Importance of Social Media Policy A social media policy is a set of guidelines and rules established by an organization to govern the use of social media platforms by its employees, representatives, or members. It aims to ensure responsible and respectful behavior online, protect the organization's reputation, maintain security, and establish a consistent online presence. A well-crafted social media policy helps create a positive online presence, protects the organization from reputational risks, and fosters a culture of responsible and effective social media use among its members or employees. Regular updates and clear communication about the policy are essential to ensure its effectiveness.

Event Summary	<p>The Artificial Intelligence Workshop held on 8/1/2022 at St. Wilfred's PG College was undoubtedly a resounding success, providing valuable and insightful information. The workshop's main objective was to introduce participants to the captivating world of artificial intelligence and its wide-ranging applications. Throughout the sessions, the workshop delved into various crucial aspects of AI, encompassing fundamental concepts, algorithms, and practical real-world implementations. Participants had the opportunity to explore the core principles underpinning AI, gaining a solid understanding of its inner workings. Moreover, the workshop thoughtfully elucidated the distinctions between AI, machine learning, and deep learning, illuminating how these different components contribute to the larger AI ecosystem.</p>

Event Summary	<p>A workshop on animation was organized in college to provide students with hands-on experience in this field. The workshop was led by experienced professionals who shared their knowledge and expertise with the students. During the workshop, students were introduced to the basics of animation, including the principles of motion, character design, and storyboarding. They also had the opportunity to create their own animations using software tools. Overall, the workshop was a great learning experience for the students. It helped them develop their creativity, problem-solving abilities, and teamwork skills.</p>

Event Summary	The Data Science Workshop at St. Wilfred's P.G. College achieved its objectives of introducing students to the field of data science and equipping them with fundamental skills and knowledge. By providing hands-on experience and exposure to real-world applications, the workshop inspired students to explore the dynamic and promising field of data science further. Continued efforts to offer such workshops and courses will undoubtedly contribute to fostering a data-literate generation capable of making informed decisions in the data-driven world.

Event Summary	<p>A guest lecture by Eminent Educationist was conducted in St. Wilfred's college. It was discussed that The Internet of Things (IoT) refers to the network of interconnected physical devices, vehicles, buildings, and other objects embedded with sensors, software, and connectivity, enabling them to collect and exchange data. The goal of IoT is to enable seamless communication between these devices, allowing them to work together to enhance the overall efficiency and effectiveness of a system.</p> <p>IoT is revolutionizing various industries, including healthcare, transportation, agriculture, and manufacturing. For example, in healthcare, IoT devices such as wearables and sensors can monitor a patient's vital signs remotely, enabling doctors to provide real-time diagnoses and treatment recommendations. In transportation, IoT-enabled sensors and devices can help improve road safety and reduce traffic congestion. In agriculture, IoT sensors can monitor soil conditions and weather patterns, enabling farmers to optimize crop yields and minimize waste.</p>

Name of Activity	Industrial Visit for BCA Students
Title	Industrial Visit
Date	28/9/2019
Venue	ARDEN Telecom, Jaipur
Organized by	Department of Computer Science
Faculty Coordinator	Ms. Shipra Sharma
Resource Person	Mr. Arun Singh
Enrolled Students	47
Event Summary	<p>An industrial visit was organized for BCA (Bachelor of Computer Applications) students to a prominent IT company in the city. The visit aimed to provide students with a practical understanding of how an IT company operates and how theoretical concepts learned in the classroom are applied in the real world. Upon arrival, the students were greeted by the company officials, who provided an overview of the company's history, mission, and vision. The students were then taken on a tour of the company, where they were able to witness firsthand the day-to-day operations and the different departments involved in running the company. The students had the opportunity to interact with the company's employees, who shared their experiences and provided insights into their respective roles and responsibilities. The students were able to learn about the latest technologies used by the company and the various software development processes involved in creating an application.</p>

Event Summary	<p>The workshop was conducted by an experienced cybersecurity professional who began by introducing the participants to the basics of cybersecurity, the types of cyber-attacks, and the difference between ethical and unethical hacking. The participants were also taught about the different phases of ethical hacking, which include reconnaissance, scanning, enumeration, gaining access, maintaining access, and covering tracks. The workshop included hands-on sessions where participants were taught to use various hacking tools and techniques, such as password cracking, network scanning, and exploiting vulnerabilities. The participants were also provided with guidance on how to prevent and detect cyber-attacks and the importance of maintaining strong passwords, secure networks, and software updates. The workshop also focused on the legal and ethical implications of ethical hacking and the importance of obtaining proper authorization before attempting any form of hacking.</p>

Event Summary	<p>The College-Organized Workshop on the Importance of A mainframe computer is a high-performance, large-scale computing system designed to handle substantial processing and data storage tasks for various applications. Mainframes are known for their reliability, scalability, and ability to support numerous concurrent users and applications. They have been an integral part of computing history and continue to play a significant role in various industries, such as finance, government, healthcare, and more. Key characteristics of mainframe computers include: IBM is one of the most well-known manufacturers of mainframe computers, with its IBM Z series being a prominent example. Over the years, mainframes have evolved to embrace modern technologies such as virtualization, cloud integration, and support for contemporary programming languages and development tools.</p>

Event Summary	<p>The College-Organized Workshop on the Importance of Computer modeling is a technique used to create digital representations of real-world systems, processes, or phenomena using computer software. It involves developing mathematical equations, algorithms, or logical rules to describe the behavior of the system being studied. This digital simulation allows researchers, engineers, and analysts to gain insights, make predictions, test hypotheses, and optimize designs in various fields.</p> <p>Computer modeling has revolutionized problem-solving, decision-making, and innovation, offering a powerful tool for gaining insights and making informed choices in scientific, engineering, and analytical endeavors.</p>

Event Summary	St. Wilfred's PG College orchestrated an insightful "Introduction to Robotics" workshop, enlightening participants about the fascinating realm of robotics. The workshop delved into core concepts, mechanisms, and programming techniques, captivating attendees through engaging discussions and hands-on activities. Experts showcased the significance of robotics in diverse industries, from automation to healthcare. Participants gained practical exposure to building and controlling robots, fostering a profound understanding of their potential applications. This workshop empowered students with foundational knowledge, sparking curiosity and paving the way for future innovation in the realm of robotics.

Activity Report	
Name of Activity	Industrial Tour for BCA Students
Title	Industrial Tour(CompuCom Software Limited)
Date	08/09/2018
Venue	CompuCom Software Limited
Organized by	Department of Computer Science & Research Cell
Faculty Coordinator	Mr. Gaurav Kumar Vyas
Enrolled Student	105
Event Summary	<p>The Industrial Tour for BCA Students was an exciting and informative experience that provided us with a firsthand look at the inner workings of the IT industry.</p> <p>The tour began with a visit to a prominent software development company, where we were given a tour of the facilities and an overview of the company's operations. We had the opportunity to observe the different teams working on various projects, and the technology they were using to develop and test their software.</p> <p>We were also introduced to the company's management team, who gave us insights into the challenges and opportunities facing the IT industry. They emphasized the importance of continuous learning and staying abreast of emerging technologies in order to remain competitive in the marketplace.</p> <p>After the visit to the software development company, we headed to a data center where we were given a tour of the server rooms and the network operations center. The staff explained the workings of the data center and how it was designed to ensure the safety and security of the company's data.</p>

Title	Workshop on Block chain Technology
Date	01-10-2018
Venue	St. Wilfred's P.G. College, Jaipur
Organized by	TPO CELL & Department of Computer Science
Faculty Coordinator	Mr. Gaurav Kumar Vyas
Resource Person	Mohd Faizaan khan
Enrolled Student	156
Event Summary	St. Wilfred's PG College orchestrated an enlightening Blockchain Technology workshop, illuminating participants about this transformative technology. The workshop delved into blockchain's decentralized nature, cryptographic principles, and its diverse applications beyond cryptocurrencies. Through interactive discussions, hands-on simulations, and case studies, attendees grasped the potential of secure and transparent data management. Expert presenters elucidated consensus mechanisms and smart contracts, fostering a deeper understanding of blockchain's impact on industries like finance, supply chain, and healthcare. The workshop concluded with participants empowered to explore and innovate within the evolving landscape of blockchain technology.

Event Summary	Cloud computing was a groundbreaking technology that revolutionized the way businesses and individuals store, process, and manage data. It allowed users to access computing resources, such as servers, storage, and applications, over the internet, rather than relying on physical hardware located on-site. Initially, cloud computing was seen as a niche technology, accessible only to large corporations and tech-savvy users. However, as the technology evolved and became more widely adopted, cloud computing became more accessible and affordable to businesses and individuals of all sizes. Cloud computing offered a range of benefits, including increased flexibility, scalability, and cost-efficiency.
